Crypto-Trotskyist sabotage the economic relations between the People's Democracies and the Western Powers

Exclusive to the NEW DIPLOMAT

The "NEW DIPLOMAT" has published, although with one week's delay due to technical reasons, the reports of its correspondent during his short stay in France. Forty-eight hours after receiving those reports, a laconic telegram of the P.A.P. Agency announced the "recall" of the Polish Ambassador in Paris and has thrown some light on the uneasiness expressed in the reports published in our last issue.

The "NEW DIPLOMAT," having denounced over and over again the manoeuvres of crypto-Troskyists who succeeded to infiltrate in the democratic ranks, deems it essential to renew its warnings to the quarters concerned and draw their attention to the danger of indifference and apathy.

The "NEW DIPLOMAT" publishes to-day some supplementary details on the nature of "sabotage" in the relations between the Popular Democratic Republic of Poland with France and Great Britain.

The "NEW DIPLOMAT" wishes to work for peace and understanding between the peoples of East and West, and no manoeuvres coming from the enemies of Popular Democracies and the U.S.S.R. would intimidate us.

The Editor.

As we have revealed in previous issues of our paper, Troskyist elements who succeeded to infiltrate in the democratic ranks, especially in diplomatic, economic and cultural missions of the Popular Democracies, are trying systematically to jeopardize the external relations of the progressive regimes.

WHO ARE THEY ?

We have already reported about them. We shall never cease to repeat that the relations, whatever nature these may be, of the Popular Democracies and the U.S.S.R. are not the privilege or the monopoly of minority groups. A particular feature of these groups is their presumption of being carrying out a messianic mission, which is incompatible with the system of both Popular Democracies and U.S.S.R.

Identical groups exert some influence and almost inspire the hysterical activities of certain political circles in the U.S.A. There is, however, nothing surprising in America because there certain people cultivate a kind of "socialism" (that of C.O.M.I.S.C.O.) which serves their imperialistic interests.

That those groups succeeded in infiltrating in our ranks, the proof is that we expose them now and again, is in itself very bad, and demands on our part more vigilance in order to check the weaknesses, if not the treasons and sabotage, that are committed against our ideals in our own entourage. We have this duty and this right, and criticism which is justified gives strength to our energies, even towards the responsible authorities. This criticism is aiming at those persons who, having failed in their functions despite the prerogatives they were enjoying, must give an account of their actions.

As our antiracist position is unquestionable, we do not hesitate to deplore also and openly the fact that many officials who are charged with missions by the Popular Democracies come from minority groups. We deplore it the more so that those groups adopt an attitude of arrogance so that so they become the object of criticism, which is very disturbing. Besides, we are not dupes of this kind of provocations designed to supply a greedy press with lies towards the U.S.S.R. and the Popular Democracies. We have revealed all the mysterious confederacy of these impostors with their co-religionaries of the West, and followed the development of a cosmopolitism of caste both ridiculous and contemptible.

The multinational character of the U.S.S.R. and the Popular Democracies contrast strikingly with the revelation of the actions of these provocateurs. These actions, however, raise a problem, that of minorities and constitute a double-edged arm very dangerous for those who like to use it. Therefore, we have to make quite clear our point of view: that no minority is entitled to maintain its dominion upon the otheas. The privileges derived from a function of confidence are the result of the collective will of the whole community, and must therefore cease the moment the slightest abuse is detected.

We have denounced through the columns of the *New Diplomat* the effects of that scourge. We have detailed the origin and the methods of crypto-Trotskyism. The example of TITO and Mosha PIJADE, as well as the example of RAJK and many others, whom we have unmasked, is a proof demanding constant attention. For neither Communism nor Socialism, neither the U.S.S.R. nor the Popular Democracies, are at the service of a racial, religious or other oligarchy. If that were so, we should be the first to denounce the followers of such imposture, as we denounce the warmongers and the imperialists.

If some persons having the responsibility of missions by the Popular Democracies commit such blunders by distinguishing themselves as to their origin, they must be denounced and excluded from any service immediately in order to save the real interests of the community to which they claim to belong and serve faithfully. We do not want to denounce certain persons by name as practising intolerance, because we consider the above warnings quite sufficient.

On the contrary, we demand a rapid straightening of things and a conformity to the only line common for all, that of fundamental equality of opportunity. The crypto-Trotskyist who act disloyally within the ranks of democratic groups should not be in a measure to exert any influence on the normal development of the relations between East and West peoples. We must unmask them immediately, whatever their high position, for our duty demands to get rid of them.

HOW THEY CONDUCT THEIR OPERATIONS

By adroit camouflage and the formation of companies more or less fictitious: here are the principal arms of crypto-Troskyists in the field of economic relations.

A vast plan of sabotage has been set on foot years ago. Only some credulous people may be dupes of the activities of these unscrupulous elements; yet our vigilance must be constant in order to avoid more grave consequences.

A few months ago the traditional friendship between the French and Polish peoples was at stake as a result of criminal blunders. Aided by the sordid machiavelism of Mr. Jules MOCH, then Minister of the Interior, Polish crypto-Trotskyists acted with a diabolical cunning.

Mr. Jules MOCH, more French than some French as a statesman, had found among his Polish co-religionists supernumeraries who did an infamous work, based on hatred. To such a point that the semi-official paper of the Ministry for Foreign Affairs, *Le Monde*, intervened by a short "day-by-day" published in a conspicuous place and denounced, through the Franco-Polish dispute, a "Third Thief" whose origin was easily identifiable. No one can consider without feeling some chilliness the serious menace which, having threatened the relations between France and Poland, is still existing between the peoples of EAST and WEST for the benefit of a messianic objective.

We give below some details, if we want to perform our rôle of informing the public, on the strange rôle of some Limited Companies, such as "VITRAME," "SOFRAMI" and "DIRPA," real nests of Trotskyists and others. These companies work with "strong support" from Warsaw (!) and play the rôle of economic middlemen between Poland, France, Great Britain and Italy. They oust the firms and the manufacturers of the countries concerned and they manage to substitute themselves, for their profit of course, in conditions so mysterious as well as onerous and dangerous to the mutual economic necessities of Poland and the other States. It is against these monopolies that the *New Diplomat* wishes to open a campaign. Nevertheless, it is more important that the Government of Democratic Poland should declare what kind of sanctions it intends to take against those of its officials responsible of sabotage in the economic relations of Poland with France and Great Britain.

THE PROVOCATIONS OF CRYPTO-TROTSKYISTS MUST STOP

Exclusive to the "NEW DIPLOMAT"

In Asia, the Balkans, Africa and the Middle East terrible plans for a Third World War are being prepared by the Agents of Messianic Capitalism.

Two Dangerous Women Linked by a Mysterious Alliance attempt at Governing the World.

Mrs. Eleanor Roosevelt and Mrs. Vincent Auriol exert an influence on the Political Life of America and Western Europe in Instigating all Anti-Russian Provocations.

Mr. Jules Moch is but a Petty Servant Entrusted With Carrying Out The Plans Conceived By Those Ladies !

After seeing with what frenzied hysteria the American Congress have voted the fantastic war budget which President Truman could not so easily obtain before the Korean conflict. we must realise how "superb" has been the role of crypto-trotskyist provocateurs. The is no doubt that President Truman had an exclamation of satisfaction over the result he obtained from Congress.

On the other hand, North Koreans, in their defence against South Koreans armed and supported by the United States. must realise how the defeat of the american troops on the Korean front has become a victory of Mr. Truman and Co. on the political field.

Thus American provocateurs, who abuse and usurp the prerogatives of U.N.O., call to our mind the picturesque story of the american fireman who, after starting many fires, was rushing to put them out. This anecdote of american life could be applied as well on Mr, Truman's methods.

The fire in Korea would be followed soon by other threats elsewhere. In the Balkans, Greece, and Yugoslavia, Titoist provocateurs are working closely with the monarcho-fascists to start a new fire, which their masters, the Anglo-Saxons, want it to start in Albania and Bulgaria.

In the Middle East, Africa, as in Asia the provocateurs are not idle. The U.S.S.R. must, according to their calculations, bear the responsibility of all the evils now affecting the world. If tomorrow the moon ceased to turn round the earth or the earth ceased to turn round the sun, you wouldn't be surprised to see the American and British Press accusing, in serious tones, the Russians and Moscow to have provoked revolutions between the Martians and the other planets. Thus, crypto-trotskyist agents are the enfants gates of the United States, for they pretend apparently to be communists and attached to Moscow, such as the famous "atomic scientist" Fuchs and his accomplices.

Sometimes we feel an urge to laugh. But, alas, all this sinister comedy orchestrated wisely by messianic capitalism represents a permanent menace against the lives of 2 billions of human beings. Thus we do not want to leave in the dark the role of two dangerous women who, linked by a mysterious alliance, attempt at governing the world.

Mme. Eleanor Roosevelt and Mme. Vincent Auriol are the Instigators of the Aggressive policy of the West.

When we pronounce the name of FRANKLIN DELANO ROOSEVELT we feel a profound respect towards the man who died before seeing the victory of the United Nations over the Axis Forces. When, however, we pronounce the name of his widow, Eleanor Roosevelt, we are seized by a kind of disgust which, as our informations confirm it, is shared by the true friends of the late President. The greatest feature of the late President was his natural modesty. On the other hand, one can see in his widow the vain impertinence of an ambitious woman. Such is the picture we form of Mrs, Eleanor Roosevelt who, one day at a meeting of U.N.O. has rejected all the articles of the american constitution for the simple reason these were invoked by the Soviet delegate to the Commission of the Rights of Man. After this incident, there is nothing to add for our argument.

As Mrs. Eleanor Roosevelt succeeded, through the prestige of her late husband, to assume the role or instigator in the american political life, we consider it our duty to bring to light her dangerous activities for the world peace. Mrs. Eleanor Roosevelt, claim her close friends, can overthrow a government with a simple agitation of the fan. It is really true when those governments are vassals to the United States. She has no power, however, to bring about any change in the Governments of Popular Democracies, although we know very well the existence of secret relations between the crypto-trotskyists of the East and Mrs. Roosevelt.

Certain secret strange actions having drawn the attention of the U.S.S.R. and that of the authorities of Popular Democrats we promise to publish some details in the near future. For the moment we limit ourselves to the task of examining the role of Mrs. Eleanor Roosevelt as well as that of Mrs. Vincent Auriol, President of the French Repnblic.

The direct encouragement both those women gave to the american agent that was Garry Davis, so-called citizen of the world, was a manoeuvre of that retrograde cosmopolitan concealed preciously by crypto-trotskyism. Cosmopolitanism is not internationalism as many might think and believe it is. The gesture of both Mrs. Eleanor Roosevelt and Mrs. Vincent Auriol has a striking contrast with their attitude towards a political refugee, progressive but anti-cosmopolitan. By this attitude, those two ladies committed a blunder, for which they feel now embarassed, and there is no doubt on the mysterious agreement established between the former president's wife of the United States and the wife of the present President of France.

It is for these reasons that we do dare to write that Mrs. Eleanor Roosevelt and Mrs. Vincent Auriol are faithful diciples of messanic trotskyism, and that their aim is to establish, by whatever means, the world authority of a Star, that of messianism.

Our correspondents indicate that the relations between Mrs. Eleanor Roosevelt and Mrs. Vincent Auriol are almost as well documented as those existing between the State Department of the U.S.A. and the French Ministry for Foreign Affairs, and that Mr. Robert Schuman's initiative is curbed by an inflexible censure.

By their actions, Mrs. Roosevelt and Mrs. Auriol have become the instigators of the evil aggressive policy of the West, a revelation which will annoy many american and french politicians, led by the tip of the nose by those two women, so dangerous as well as intriguers.

Page three

Long live the friendship and co-operation of the peoples fighting for lasting peace!

THE PROVOCATIONS OF CRYPTO-TROSKYISTS MUST STOP

From Page two

Mr. Jules Moch, Petty Servant, Entrusted with the carrying out of Mme Roosevelt and Mme Auriol's plans.

The political situation of France in 1945 and 1946 was such that every careful observer could anticipate that Mr. Felix Gouin, who has been president of the Provisional government after the Liberation from January 26, 1946 to June 11. 1946—would be the person to be called to watch over the destinies of the French Republic. He had, however, failed to obtain this objective because of an "untoward" event, the "scandal of the wines." The name of Mr. Jules Moch has free quently been mentioned, but the scaudle has been hushed up and only Mr Felix Gouin has been ousted from thc political scene ever since.

Mr. Felix Gouin is a member of the Socialist Party, and his feelings towards his colleague, Jules Moch, are far from good, Despite the serious, spectacular rather quarrels, coming to blows, with Mr. Blumel, former director of Leon Blum's office and close collaborator of Jules Moch, the little information we have is rather confused.

Recently, however, Mr. Felix Gouin showed signs of impatience by threatening to abandon the Socialist Party and join that of General de Gaule. At the same time Mr. Jules Moch has been involved in the famous "scandale des generaux," and he owes his safety to the in-extremis intervention of Mr. Vincent Auriol, equally mentioned in the scandal who had established a provisional status.

From all information available it is quite evident that the role of Mr. Jules Moch has not been commendable in the various successive governments since September 10th 1944. The only obscure aspect of his permanent participation in the French Governments is now becoming clear by the fact of the "precious solitude" of Mrs. Vincent Auriol towards the man commonly called in France "Cousin Jules."

There is not the slightest doubt that in all those occult enterprises the role of the crypto-trotskyists exerts a great influence on the political moves not only of France, but also of all countries of the West. We no not want to-day to extend our investigation any further on these happenings. We limit ourselves, as we have done it in the past, to stigmatize the role of petty servant Mr. Jules Moch had played and continues to play, We denounce all the messanic provocations which imperil the world peace by recalling that it was by the "activities" of Mr. Moch the Atlantlc Pact and the Marshall Plan were established and linked together the destinies of the peoples of the West.

We must, therefore, try to stop—the sooner the better—the provocations of crypto-trotskyists. if we want really to save Peace. If not look out for the biblical prophecies.

LETTER FROM BELGIUM

The Socialists of COMISCO and the Crypto-trotskyists by their provocations against Leopold, want to thwart the Rapprochement between Catholicism and Soviet Union

From OWN SPECIAL CORRESPONDENT

BRUSSELS, August, 1950:—The demonstrators against Leopold have revealed their mean anticlericalism in the course of the last few days. It is well understood that it is Moscow which will feel its repercussions. Christian socialists forget to accuse their opponents, the socialists of C.O.M.I.S.C.O. and turn only their bows and arrows against the belgian communists. Thus the anti-soviet venom flows out abundantly.

The French and British Press has contributed to a great extent to the action of Leopold's opponents, and the climate of May 1940 has been recreated for the necessities of the bad cause supported by the real responsibles of a catastrophe, of which King Leopold had restricted the damage.

While passions were exasperated, and the Flemish and Wallons were opposing their respective views on the royal question as a result of which the moral unity of Belgium as destroyed, the messianic groups of France and Great Britain are playing a dishonest game on the political scene of Belgium.

Mr. Buset and Mr. Spaak, together with Motz and Deveze, not to mention other "eminent" crypto-troskyists, have brought all the weight of a contemptible blackmail on King Leopold, with a view of consolidating their political position. The Brussels Pact, the Atlantic Pact, the Marshall Plan and all secret agreements relative to the Belgian Congo have been the subject of mysterious talks with the leaders of the Socialist-Christian Party. We don't know how many undertakings and secret agreements were achieved.

King Leopold III, in delegating his powers to prince Baudouin, has not succeeded to save the unity of Belgium. The future will show whether he has not imprudently fixed the date of division, from now on certain, of his country thrown to the worst adventures of the hysteric americans.

Unity is force, says a Belgian motto. And we say, Mr. Paul Henry Spaak, that the frog cannot become a bull. **H. S.**

ETU Delegates visit Dnieper Power Station

The delegation of the British Electrical Trades Union now visiting the USSR has spent three days in Zaporozhye, during which time the guests have visited the Dnieper Lenin hydro-electric power station, a Pioneer camp, and the Kirov collective farm. They spent some time in the Upper Khortitsi District where extensive use is made of the power from the Dnieper hydroelectric station.

The guests attended an amateur art concert at the Palace of Culture of the power workers. At the Palace of Culture they also met leading workers from the Lenin power station. On August 8, at a lunch arranged by the local trade union organisation, members of the delegation gave impressions of their visit. They gave high praise to the heroic work of the builders who had restored the great Dnieper Lenin power station. They favourably compared the Palace of Culture with the finest London theatres. They had been astounded to learn that it was a workers' club.

The President of the ETU, Frank Foulkes, said:

"From the bottom of our hearts we congratulate the working people of the USSR who have achieved great successes in peaceful construction. Our trade union takes an active part in the work of the British Peace Committee. On our return home we shall tell the truth abouth the Soviet Union and increase our struggle to defend world peace."

On August 8 the British delegation flew to Sochi.

ЗВЕРСТВА ЛИСЫНМАНОВЦЕВ СОВЕРШАЕМЫЕ ПО УКАЗАНИЯМ АМЕРИКАНСКИХ "СОВЕТНИКОВ"

Специальный военный корреспондент агентства Синьюха передает сообщение, в котором указывается, что он расследовал зверства лисынмановцев, совершенные по указаниям американских "советников". Как только начал осуществляться план вторжения в Северную Корею, были отданы приказы о систематическом истреблении всех демократов-всех политических заключенных, находящихся в то время в тюрьмах Ли Сын Мана, число которых составляло от 200-400 тысяч человек. Точное число их никогда не будет известно. Корреспондент рассказывает об обстоятельствах зверского убийства 7.000 корейских патриотов в деревне Ранвуль, расположенной в 7 километрах юго-восточнее Течжона на шоссейной дороге. Я провел там много часов,—пишет корреспондент,—осматривая ямы с трупами, фотографируя, собирая американские стрелянные гильзы, разбросанные на земле. Я опросил порознь более 20 свидетелей, проверяя каждую деталь. Вот как обстояло дело:—

2 июля в эту деревню прибыли грузовики с лисынмановскими полицейскими и жандармами, которые, под угрозой штыков, заставили жителей деревни спуститься в долину и вырыть несколько больших ям. Этих ям было шесть. Самая большая из них была 200 метров в длину, от двух до четырех метров в ширину и два метра в глубину Две других были по 100 метров в длину, остальные-меньше.

4 июля, как только первая яма была готова, полиция и жандармы начали привозить на американских грузовиках заключенных из местных тюрем. Одни грузовики вели американские военные шоферы, другие-шоферы марионеточной армии. Заключенных грузили на машины следующм образом: в тюрьмах их избивали до бессознательного состояния тяжелыми палками и грузили на машины-сначала слой людей, затем слой рогожи, затем опять слой людей и т.д. Наверх садились жандармы (об этих фактах я узнал, посетив тюрьмы, разговаривая с некоторыми уголовными преступниками, находившимися в тюрьме).

Перед прибытием грузовиков в долину приехали два американских "виллиса" со старшими офицерами американской и марионеточной армии, которые курили и оживленно разговаривали. Грузовики подвели к краю первой ямы. Некоторые находившиеся на дне машины, повидиму, уже умерли. Вольшинство заключенных находилось в полусознательном состоянии от побоев и голода. Тех, кто еще мог держаться на ногах, заставили встать на колени и, примерно, по шести раз выстрелили им в спину. Те, кто не мог встать на колени, были застреляны или зарублены на земле.

Тела сбрасывались в яму и, как только наполнялась одна ее часть, крестьян заставляли забрасывать ее землей и утоптывать, а грузовики передвигались к другой части ямы.

Эта первая серия убийств продолжалась три дня—4-го, 5-го и 6 июля. Всего было более 60 грузовиков, и в каждом из них находилось более 50 человек. По самым скромным подсчетам число убитых в эти дни составило не менее 3.000 человек.

В ночь на 16 июля Народная армия форсировала реку Кымган, протекающую, примерно, в 20 километрах севернее Течжона. На Рассвете 17 июля в долину прибыли "виллисы" и вскоре после этого начали под'езжать грузовики. В грузовиках были заключенные, погруженные так же как и раньше. Убийство продолжалось с рассвета до глубокой ночи. На этот раз многие заключенные были брошены в ямы живыми, а сверху на них навалены трупы. Видели, как американские офицеры торопили жандармов. Удалось бежать только одному заключенному. Он выпрыгнул из грузовика в то время, когда машина в'езжала в этот район.

После 17 июля полиция арестовала родителей, жен, мужей и детей жертв, которые также были убиты.

Далее корреспондент сообщает, что в Инчоне полицейские и жандармы убили на улицах из автоматов 800 человек. Свыше 1000 патриотов были утоплены в море. Их руки были связаны за спиной, им перерезали жилы, их кололи ножами и выбрасывали с лодок в море. Одним из лиц, руководящих этими операциями, являлся американский инженер с одного из двух судов-плавучих электростанций, стоящих в гавани Инчона. Рабочие видели, как он отдавал приказания жандармам.

В Сувоне до настоящего времени обнаружены 260 трупов убитых патриотов, которые были зарыты в 8 пещерах близ города.

В небольшом городке Пхенхэк, насчитывавшем 20.000 жителей, ночью 3 и 4 июля убито 3.033 патриотов.

В городе Чочкион лисынмановцами было убито 156 человек.

Каждый город.—пишет в заключение корреспондент, как бы мал он ни был, может рассказать ту же историю.

МАССОВЫЙ МИТИНГ ПО СЛУЧАЮ 5-й ГОДОВЩИНЫ СБРАСЫВАНИЯ АМЕРИКАНЦАМИ АТОМНОЙ БОМБЫ НА ЯПОНСКИЙ ГОРОД ХИРОСИМА

Английская пацифистская организация "Союз борьбы за мир" организовала на Трафальгар-сквер массовый митинг по случаю 5-й годовщины сбрасывания американцами атомной бомбы на японский город Хиросима. На митинге присутствовало около 3.000 человек. В митинге приняли участие такие пацифистские организации как "Общество друзей" (квакеры), "Товарищество пацифистов-прихожан англиканской церкви", "Товарищество пацифистов-лейбористов", "Национальный совет защиты мира", "Международная женская лига борьбы за мир и свободу" и другие.

Выступивший на митинге член парламента-лейборист Хадсон сказал, что он не намерен рассматривать международное положение, исходя из предпосылки, будто Советский Союз является врагом. Позиция Советского Союза в ООН об'ясняется тем, что западные державы, закончив войну начали накапливать атомные бомбы, чтобы применить их против русских.

Касаясь вопроса о представительстве Китая в ООН, Ходсон указал на невозможность дальнейшего пребывания в ООН представителей Чан Кай-ши. "Туда,—сказал он,—должен быть допущен тот Китай, который признала Англия".

От Ассоциации ученых-атомников на митинге выступил доктор Буроп. Он заявил: "Мы, ученые. пришли к соглашению в одном вопросе—мы решили сделать все, что в наших силах и даже то, что свыше наших сил, чтобы не было повторения Хиросима ни в Англии, ни в России, ни в Америке, ни в Китае, ни в Корее".

Буроп напомнил собравшимся, что видные ученые-атомники призывали Трумэна не применять атомную бомбу против гражданского населения без предупрежения. "На призывы не обратили внимания. Ученым-атомникам внушает отвращение способ применения первой атомной бомбы".

Обсуждая кампанию клеветы, проводимую против Английского Комитета Защиты Мира, который обвиняют в том, что он является "коммунистической" организацией, Буроп с похвалой отозвался о деятельности тех, кто собирает подписи под петицией мира.

Выступивший на митинге деятель методистской церкви, суперинтендент Западно-Лондонской миссии доктор Сопер заявил: "Пытаться убедить людей в том, что единственный способ обеспечить мир—это производить все большее количество вооружения,—значит нести чудовищный напыщенный и гибельный вздор".

В СТРАНАХ ЮЖНОЙ АМЕРИКИ РАСТЕТ СОПРОТИВЛЕНИЕ АМЕРИКАНСКИМ ВОЕННЫМ ПЛАНАМ НА ДАЛЬНЕМ ВОСТОКЕ

Госдепартамент США дал инструкции своим дипломатическим представителям в ряде государств Латинской Америки начать переговоры с правительствами этих стран о предоставлении войск для войны в Корее. Американские империалисты при этом устанавливают примерное число солдат, которое должна поставить каждая Латино-Американская страна для осуществления американской интервенции в Корее. Планируется, что Аргентина должна послать в Корею по меньшей мере 3.000 солдат, Бразилия—8.000, Колумбия—1.500, Чили—1.000.000 и т.д. В сообщении указывается' что американское военное министерство не возлагает надежды на это мероприятие Госдепартамента США в виду того, что в болшей части стран Южной Америки растет сопротивление американским военным планам на Дальнем Востоке, а также усиливается борьба за мир.
